**Subject:** draft CFAC Site Update  
EPA-CFACsiteUpdate-20170227draft.docx

Hey Mike,

Attached is some draft text for the next CFAC Site Update for the community. Let me know what changes your thoughts/edits/feedback.

My suggestion would be to send this out after the RI data and summary report are available in SEMS and published to our webpage. That way, we can link straight to the document online from the Site Update and deliver a hardcopy to the info repository. I can also add links to the CFAC frontpage as well.

The last Site Update was sent Sep 2016.

You still coming on Thursday?
